

SIDE EVENT BY  
TCO SWEDEN & VISION

# Climate activism at the workplace – now! But how?

## Programme:

- 'Green reps' in the workplace – learn from the initiative of Swedish union Vision
- Panel with union representatives from South Africa, Denmark, Norway
- Workshop (all participants)

## About the event

A Just Transition ensures no one is left behind, but how can we involve members and make them an active part of the necessary transformation?

Climate change affects the working conditions of workers all over the world. There is an urgent call for climate activism at the workplace.

The workplace is our arena for change. When members join forces at the workplace, even minor changes in behavior can have a major effect. Vision, part of TCO Sweden, is the first Swedish trade union to establish a union role, 'green rep', that

makes it possible for members to reduce climate impact on the job.

Listen, learn and discuss with others how to engage members for climate.

**Join us and share your union's experience!**
